

If you live with or care  
for someone at high risk  
for serious complications  
from seasonal influenza,  
you should get a seasonal  
flu vaccine. Groups at  
high risk include kids  
and adults with chronic  
medical conditions like  
**asthma** and **diabetes**.

# My Little Girl Has Diabetes.

**We'll BOTH Get Our Flu Vaccines.**

U.S. Department of  
Health and Human Services  
Centers for Disease  
Control and Prevention
